PRODUCT CHANGE NOTICE

PCN C020261105
Issue Date: September 10, 2026

Dear Valued Customer,

This notice is to inform you of a product obsolescence that may affect selected items that you have purchased from Littelfuse.

Description of the Change:

Littelfuse has decided to discontinue and no longer support the manufacture of the products listed below.

Reason for The Change:

As part of our ongoing product portfolio management process, Littelfuse periodically reviews product demand, material availability, and long-term support requirements.

Following a recent assessment, it was determined that the affected products have experienced low market demand while requiring materials that are subject to minimum purchase quantities and sourcing constraints that are no longer aligned with current business requirements.

This change is part of our product line optimization strategy and will allow Littelfuse to focus resources on products with broader market demand while continuing to support customers through our core product offerings.

Effective Date of the Change:

Effective immediately.

What You Need to Do:

Customers are encouraged to review the attached list of affected part numbers and evaluate any impact to their applications. Where applicable, Littelfuse may be able to recommend alternative products or solutions.

If you have any questions, please contact your Customer Service or Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Associate Product Manager
Littelfuse Commercial Vehicle Products
