15.October.2026

Dear Customer,

Please review this **PCN** and provide your feedback in the **Customer approval form** (at the end of this PCN document) to your ams OSRAM sales partner before **15.November.2026**

Your prompt reply will help ams OSRAM to assure a smooth and well executed transition. If ams OSRAM does not hear from your side by the due date, we will assume your (if you are a Distributor: and your customer's) full acceptance to this proposed change and its implementation.

ams OSRAM understands the time requirements your organization needs to approve this PCN.
However, if you can provide ams OSRAM an estimated date your organization will have finalized this PCN review, ams OSRAM can use this date to plan continued production to secure your order needs during the transition time.

Your attention and response to this matter is highly appreciated.

Please direct your inquiries to your local Sales office.

ams OSRAM aligns with the widely recognized JEDEC/ECIA/IPC Joint Standard No. 46, which stipulates:

- Customers should acknowledge receipt of the PCN within 30 days of delivery of the PCN.
- Lack of acknowledgement of the PCN within 30 days constitutes acceptance of the change.
- After acknowledgement, lack of additional response within the 90 day period constitutes acceptance of the change. If the customer requires additional time to perform sample testing, beyond the 90 day review period, an extension must be negotiated with the supplier.

Subject of change:	Upgraded IR Chip with Substrate PCB supplier and Casting Material change		
Affected products:	SFH 7074		
Reason for change:	The current IR chip and casting material will be discontinued and the current substrate PCB supplier has decided to exit the business.		
Description of change:	**Change Area**	**Current Status:**	**New Status:**
	IR Chip	The current IR chip will be discontinued by the supplier.	A new generation of IR chip will replace the old IR chip.
	Substrate PCB	Supplier A has decided to exit the business.	Supplier B substrate PCB will replace Supplier A.
	Casting Material	The current casting material will no longer be supplied by Supplier A.	A new casting material from Supplier A will replace the current casting material.
Product identification:	via Date Code		
Time schedule for PCN material: (after implementation of change):	Final qualification report:		15.October.2026
	Samples availability:		Upon request or may take up 2 to 4 weeks.
Time schedule for Pre-PCN material:	Last time order date (LTO):		LTO cannot be guaranteed on the pre-PCN material as the availability of the current IR chip, substrate PCB and casting material is limited. Supply commitment will be limited to the forecast quantities reflected in the system.

	Last time delivery date (LTD):	LTD cannot be guaranteed on the pre-PCN material as the availability of the current IR chip, substrate PCB and casting material is limited.
Assessment:	The changes do not affect the form, fit and function of the product. Datasheet remains unchanged.	

Note:

Pre-PCN material: Products of current status, means before implementation of the changes as described in the PCN.

PCN material: Products with implementation of the changes as described in the PCN.
