

Flex Beam Technology (FBT)

◆ Value To Customer

- Simplified connection system that provides terminal position assurance using only one piece of plastic
- Allows stream lined connections with fewer parts

◆ Functionality

- Extends Delphi's GT and 09011 product lines
- Available for both terminal-to-connector cavity interface and the connector build fixture
- Includes 1.5, 2.3 and 2.8 mm sealed and unsealed female connectors
- Complies with USCAR standards

◆ Delphi Advantage

- Meets ISO and USCAR standards
- Package size suited to tight space requirements
- Eliminates labor related to secondary plastic pieces
- Reduces complexity, mass and cost
- Provides improved warranty
