

WIDE PORTFOLIO ...

MA01 floating connectors are produced with eight different pin counts from 30 to 140 pins and in nine mating heights for stacking connections from 8 to 30 mm. All products marked in the table are already available. Please, contact JAE for further information.

FLOATING SIDE	FIXED SIDE	Mating height (mm)	Number of pins

■ Available. Please, contact JAE for further information.

... GREAT VARIABILITY

In addition, there are two versions for vertical connection – high or low. You are welcome to contact us if you have special requirements.

Tolerance in stacking height between PCBs: ±0.5 mm in Z axis

WE CONNECT

THE NEW MA01 SERIES BtB HIGH SPEED TRANSMISSION FLOATING CONNECTORS FOR AUTOMOTIVE

- Perfect alignment
- High speed data transmission
- High contact reliability
- Multiple mounting options
- Tailored to automotive market requirements (–40 °C to +125 °C)

THE BEST WAY TO STAY IN CONTACT: THE NEW MA01 FLOATING TYPE CONNECTORS

The use of connectors in electronic devices that are subject to motion, and especially in the automotive industry, is challenged by two major issues: the compensation of manufacturing and assembly tolerances and the allowance for board movements due to shocks, vibrations and temperature changes.

The new MA01 series offers a robust double contact point. In addition, the reliable flat contact surface prevents the challenges related to micro-vibration.

As one of the world's leading developers and suppliers of innovative connectors, JAE meets the growing demand for high-quality and high-performance floating board-to-board connectors for highly efficient and cost-effective automated PCB assembly.

EASY APPLICATION. HIGH RELIABILITY. STRONG PERFORMANCE.

To offer our customers maximum application and design flexibility, JAE's new MA01 series covers a wide, market-leading range of floating board-to-board connectors with mating heights from 8 to 30 mm and a pin count from 30 to 140 pins for parallel or vertical orientation of the PCB.

Both the floating and the fixed connector side are mounted with a protective cap in order to prevent the ingress of foreign substances and facilitate automatic assembly. A pin height of 0.60 mm ensures good visibility of the solder connection, and mis-mating is prevented by a special guide construction.

MA01 CONNECTORS AT A GLANCE: GREAT FEATURES AND STRONG BENEFITS

JAE's cutting-edge MA01 BtB floating connectors combine perfect alignment, compact design, high data rate and wide temperature range with high reliability, excellent durability and great variability.

PERFECT ALIGNMENT

- Effective floating range: X/Y ± 0.5 mm movable
- Special mating guide construction (X/Y ± 1 mm) prevents misalignment at PCB assembly
- Easy fitting during manual assembly due to special guiding form
- Excellent optical controllability and a production friendly structure: JAE connectors have visible SMT contacts

HIGH SPEED DATA TRANSMISSION

- High data rate transmission: 8 Gbps+
- Equivalent to 10GBASE-KR, PCIe Gen3

HIGH CONTACT RELIABILITY

- Double contact structure
- Rolled surface connection (lower insertion force, higher wear resistance)

SMALL, COMPACT DESIGN

- Various pin counts (30–140 pins)
- High pin density (0.635 mm pitch)
- Easy to assemble due to alignment pegs
- A special cap protects the connector's mating area prior to usage and facilitates pick and place automatic assembly

MULTIPLE MOUNTING OPTIONS

- Different stacking heights (8 to 30 mm)
- Multiple BtB PCB mating connections (parallel and vertical, in low and high versions)

WIDE OPERATION TEMPERATURE RANGE

- -40°C to $+125^{\circ}\text{C}$
- Tailored to automotive market requirements
