WHAT TO KNOW

This section contains the necessary details for the Phoenix Contact sales team to become familiar with this new product. Information in this section should be used INTERNALLY ONLY.

PRODUCT DESCRIPTION:

With the new SPT 35/..-H, Phoenix Contact is extending its SPT portfolio with high-current PCB terminal blocks with spring connection technology to include horizontal orientation variants.

The wave-solderable PCB terminal blocks are available as standard in versions with 1- to 5-pos. With a 15 mm pitch, conductors with a cross-section of up to 35 mm² can be connected by means of convenient and tool-free Push-in connection technology. The defined contact force ensures permanently stable contact. With the horizontal connection and actuation direction, the product series is ideal connectivity on the front of the device.

FEATURES & BENEFITS:

- Tool-free operation with fast spring-connection technology saves time during wire termination
- Horizontal and vertical orientations
- Value-add abilities include color-coding, labeling, additional positions, and printing
- 15,00 mm pitch
- Up to 101 A
- Up to 600 V

PART NUMBER LIST:

- 1587109 – 1 position
- 1587110 - 2 position
- 1587112 – 3 positions
- 1587113 – 4 positions
- 1587114 – 5 positions

WHAT TO SAY

This section will arm the sales team with the information they need to effectively talk about and sell this product. We are talking about what value this product has in certain industries and how it stacks up against the competition. Please also include any opportunities for cross-selling other Phoenix Contact products.

Top three value propositions

1. Tool-free, quick spring connection
2. Suited for high current and power
3. Termination is independent of the user, so there is no need to worry about a torque value

Cross-selling

1. LPT products: Same footprint, different termination method
2. Other COMBICON and data connectors: If other connectors are needed on their board in a variety of sizes
3. Enclosures: If the board needs a housing

WHAT TO SHOW

This is the customer-facing resource section. Please list any assets that the sales team can share with customers that may give them more information about your product.
