

INTERNATIONAL TRAFFIC AND ARMS REGULATION COMPLIANCE

With strategically-positioned global manufacturing facilities, an extensive line of proven interconnect solutions, renowned signal integrity expertise, and full custom product development capabilities, Samtec is uniquely positioned to support the challenging high tech needs of the Military and Aerospace industries.

Samtec is known for its flexibility and speed in the Military and Aerospace industries with Commercial Off-The-Shelf (COTS) products. However, many high tech Military and Aerospace projects require custom solutions which are subject to ITAR. Samtec addresses ITAR compliance for modified COTS parts through the MAP Series.

- » Military Aerospace Products (MAP) Series offers full ITAR control
- » ITAR registered since January 16, 2009
- » Multiple USA manufacturing locations
- » Corporate Headquarters in New Albany, IN
- » Secure systems to ensure only approved US citizens can address ITAR orders
- » Secured areas for ITAR manufacturing

For more information, on ITAR compliance, please contact ITAR@samtec.com
