Power Semiconductors

In Stock and
Available to Sell

TTI Stocks the Discrete Products You Need for Your Next Design

Whether it's industrial, automotive, high-reliability or medical, TTI provides an extensive portfolio of discrete semiconductors in stock and available to ship. Our industry-leading inventory of power semiconductors from the world's premier manufacturers makes TTI an easy choice for your next discretes solution. For the most up-to-date information on performance, availability and lead times, contact your local TTI Specialists at 1.800.CALL.TTI or visit us online at tti.com.
