Subject: Ukraine/Russia Conflict - Supply Chain Impact

Dear Ms. Hicks:

While the recent conflict in Ukraine/Russia has created supply chain uncertainty, CTS Electronic Components, Inc. (“CTS”) does not source any components used in the manufacturing of EMI filters from this region.

As a result, the CTS does not foresee any impact to lead times or deliveries for the EMI filter product line. CTS is monitoring the situation closely and will inform you if the situation changes.

Best Regards,
