

To whom it may concern

Aubervilliers, March 1st 2022

Dear Customer,

In regards to geopolitical situation in Ukraine and questions you may have, I hereby inform you that RADIALL does not have any supplier or sub-tier supplier (goods and services) located in Russia or Ukraine.

RADIALL teams remain fully focused on closely monitoring our overall supply chain activities since recent harmful events in Ukraine are coming on top of already existing tensions on our upstream markets leading mainly to raw material procurement extended lead times, semiconductor shortages and increased transit times.

Sincerely,

Alexandre Diehl
Vice-President Purchasing
