# BRING MORE TO YOUR CLASSROOMS AND STUDENTS

We understand the financial constraints IT and Facilities Managers face when budgeting for resources and facilities. HellermannTyton provides educational institutions with connectivity solutions to meet every performance need and budget. There's no need to compromise on quality or performance. We offer high quality, innovative products with the bottom line in mind.

Don't have the budget to knock down walls to build a new media center? We have the perfect solution. HellermannTyton surface raceway systems allow you to route power and communication cables along wall surfaces, for short or long hauls, in any configuration you need. So, you can put the technology your educators need, where they need it.

Need higher capacity in the data center but don't have a lot of lead time? HellermannTyton will work with you to design a customized pre-terminated solution. Our RapidNet® pre-terminated copper and fiber solutions allow for expedited installations and upgrades. In addition to providing a low-waste installation, RapidNet is customized to the exact lengths you need. Every link is pretested and labeled at our manufacturing facility in Milwaukee, WI. From design to deployment, HellermannTyton's RapidNet pre-terminated solution will ensure a quick and efficient cable install.

Manufactured to meet or exceed the highest quality and performance standards set forth by the Telecommunications Industry Association (TIA); all HellermannTyton connectivity products come with a lifetime warranty against product defects. And to help ensure the superior performance of our products and your installations, we provide complete installer training and contractor certification programs. Only HellermannTyton Certified Contractors may offer an additional level of assurance - our comprehensive Network Sciences 25 Year System Warranty on your complete system installation.

HellermannTyton is a total solutions provider. Our experienced sales representatives will connect you with the tools and resources needed to create the optimum learning environment. And, if you ever have a question or concern, we are just a call or click away, with outstanding customer service and technical support.

Let us help you bring the next level of technology to your classrooms.

# Network Connectivity Solutions

## RapidNet® Pre-terminated Connectivity Solutions

RapidNet is a patented, connect-and-go pre-terminated system providing high performance copper and fiber solutions within the same footprint. Pre-terminated RapidNet systems increase speed of installation while reducing waste materials and enabling cleaner jobsite installs.

Copper RapidNet

Fiber RapidNet

Modular Panels

Auxiliary Rails

## HelaNet™ Copper Solutions

Fully structured cabling solutions that include Category 5e, Category 6, and Category 6A product lines for high performance, quality engineered installations. HellermannTyton offers a variety of termination tools; and our connectivity products are compatible with most preferred termination tools on the market.

Keystone Jacks

Faceplates

Surface Mount Boxes

Multimedia Modules

Patch Panels

110 Blocks

Patch Cords

Termination Tools

## HelaNet™ Fiber Solutions

Fiber enclosures, connectors, adapter panels, jumpers and more – components to help achieve optimal bandwidth and performance at different density requirements. HellermannTyton keyed LC fiber solutions allow for secure installations.

Rack Mount Enclosures

Wall Mount Enclosures

Adapter Panels

Splice Trays

Cable Assemblies

Connectors

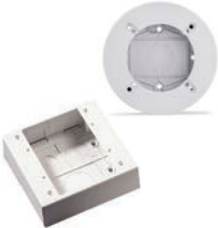

Modules

Keyed LC Fiber
