

**BUILDINGS
THAT
THINK
COUNT ON
CONNECTIVITY**

**THAT'S WHY THE WORLD'S BUILDING CONTRACTORS
COUNT ON TE CONNECTIVITY**

INTELLIGENT BUILDINGS

EVERY CONNECTION COUNTS

INDUSTRIAL

COUNT ON OUR SUPPORT HERE, THERE, EVERYWHERE

TE has manufacturing, operations and design centers around the world. With 30 global Product Information Centers (PICs) featuring dedicated technical experts who speak English and 12 other languages, there's always knowledgeable assistance within reach. Our local engineers speak your local language too and are ready to leverage their expertise for you. TE makes it easy to connect: Just call, email or chat. Our goal is to assist you as fast as possible.

TE CONNECTIVITY FAST FACTS

Annual Revenue:	US \$14+ billion (2011)
R&D Investment:	5% of sales per year (approx.)
Patents Issued/Pending:	20,000+
Employees:	100,000+
Engineers:	8,000+

DEDICATED INDUSTRIAL ENGINEERING & MANUFACTURING SITES

- Bideford, UK
- Bydgoszcz, Poland
- Christchurch, New Zealand
- Grenoble, France
- Hermosillo, Mexico
- Landisville, USA
- Providence, USA
- Rödermark, Germany
- Trutnov, Czech Republic

PRODUCT INFORMATION CENTERS

COMFORT, CONTROL AND CONVENIENCE YOU CAN COUNT ON

Buildings are alive. They talk. They breathe. They have the intelligence to sense and react, anticipate and illuminate. With increased urbanization and a rise in environmental concerns, there is a growing demand for state-of-the-art buildings that provide total comfort, control and convenience—all while lowering total cost of ownership. TE Connectivity can help you meet this demand.

ENABLING BUILDING AUTOMATION ONE FLOOR AT A TIME

TE is your full-service innovation partner, leveraging cross-industry engineering expertise to integrate all building systems so they connect more intelligently. We collaborate with contractors and systems integrators to link power and data on every floor, and help enable energy-efficient buildings that:

- Seamlessly connect lighting, HVAC, elevators/escalators and security
- Communicate and control wired and wirelessly for optimal performance
- Reduce installation costs and time

Our portfolio of custom-configured solutions are designed with OEMs in mind, making it easy to retrofit an existing structure—or build from the ground up.

BUILD A FOUNDATION FOR EFFICIENCY

- Commercial buildings account for **18%** of all US energy usage¹
- Improving climate control and air quality monitoring generates up to **30%** energy savings²
- Converting from incandescent to Solid State Lighting generates up to **75%** energy savings³

MEET THE DEMAND FOR MORE INTELLIGENT BUILDINGS

COMFORT: LIGHTING AND ENVIRONMENTAL (HVAC)

- Antenna products to facilitate across a broad range of frequency requirements
- Enable custom-designed, innovative grid system interconnects that distribute power to lighting fixtures, controls and sensors
- Highly engineered climate control system includes quick connects, relays, power filtering and more

CONTROL: FIRE AND SECURITY

- Single-platform, fully integrated systems for access control, intrusion detection, fire detection, video surveillance, biometrics, storage and cards/readers
- Custom-designed security components give tenants and occupants the power to protect
- Innovative connectivity solutions—such as shutting down air ducts when a fire starts or locking access doors upon sensing an intruder

CONVENIENCE: ESCALATORS AND ELEVATORS

- Customized connectivity solutions include power filtering and resistive components
- Designed for high-performance, reliability and seamless operation, our products can support your system from design to retrofit
- As part of our solution set, TE performs product testing in our own R&D laboratories

YOUR FULL-SERVICE INNOVATION PARTNER

TE has a history of partnering early in the relationship with OEMs to better customize solutions—and we're committed to delivering extraordinary customer experiences. Our design teams will work closely with your engineering personnel, either on-site or remotely, to develop products that meet exact system requirements. All while improving system productivity, enabling energy efficiency and reducing costs. **To learn more, visit [te.com](https://www.te.com).**

LET'S CONNECT

We make it easy to connect with our experts and are ready to provide all the support you need.

Just call your local support number or visit te.com to chat with a Product Information Specialist.
