

Industrial Mini I/O Connector

2201855-1

2040008-1

2294417-1

2350278-1

2271656-1

CUSTOMER BENEFITS

- Stable connections are guaranteed by the optimized signal path design, 360 degrees shielding and a contact system with double contact point
- High board retention and metal latch prevents unnecessary disconnections
- Small form factor reduces PCB area and equipment height
- Two unique interfaces (Type 1 and Type 2) prevent unwanted mismatching
- Improved coplanarity and LCP materials allow for the latest assembly process technologies
