SL-630 SERIES

SPECIFICATIONS

- High/low liquid level monitor
- "Peel and stick" to the outside of a wide range of plastic containers
- Never comes in contact with liquid – no risk of contamination or volume displacement
- Proven ultrasonic technology
- Repeatability: $\pm 0.1"$ (2.54 mm)

The Non-Invasive Sonic Eye™ SL-630 is a cost effective ultrasonic sensor for plastic containers. The sensor is designed to adhere to the outside of plastic containers with diameters from 2" (50.8mm) to 10" (254mm) with a wall thickness up to 0.25" (6.35mm) as a high/low level liquid level monitor. The sensor sticks to the outside of the container, never coming in contact with the liquid, so there is no contamination or volume displacement.
