

February 13, 2026  
Issue Number: 1066

**Subject: Important Manufacturing Update-Relocation of the 3M™ Molded Assembly 1M Series and 2M Series**

Effective immediately, 3M will begin relocating manufacturing of the following product series from China to Vietnam.

- 3M™ Molded Assembly 1M Series
- 3M™ Molded Assembly 2M Series

This transition supports our long-term strategy to streamline manufacturing operations and help mitigate potential future cost impacts while maintaining supply continuity.

**Key details:**

- There will be **no Country of Origin (COO) changes**.
- **No SKU or part number changes** are required — products will remain the same as they are today.

**ACTION:** During this period of transition, we will not be able to manufacture new product. To help ensure supply continuity, we strongly encourage customers to plan ahead and **place orders no later than March 31st** to secure product before the shutdown begins. Expectation is manufacturing will **resume mid-August**.

We appreciate your partnership and understanding as we complete this transition. Your sales representative is available to help review forecasts, plan inventory needs, and support any supply questions during this period.

Please See Appendix A for impacted products:

Brent Gossett  
Portfolio Marketing Manager for Global Interconnect  
bgossett@mmm.com
