Subject: Update on relocation of the manufacturing of the 3M™ Round Conductor Flat Cable Series 3601/3604/3609 to the United States

In September of 2025, 3M announced that we would be relocating manufacturing of the above-mentioned products from the facility in Mexico (MX) to the facility in the United States (US).

As the relocation is nearing completion, we wanted to communicate the new SKUs for the US facility that you will need to use on your Orders. The SKU changes are necessary due to the Country of Origin (COO) changing. This relocation should allow us to streamline our manufacturing and shorten lead times. [This relocation of the products does not affect the fit, form or function of the products.] However, it is your responsibility to determine whether the products are suitable for your intended applications.

Please see Appendix A for new SKU information. All current, open orders, and any order placed in the future should reflect the new SKU and COO.

Please let us know if you have any questions or concerns.

Brent Gossett
