Subject: Important Manufacturing Update Regarding our DIN Series Sockets and Plugs

Effective immediately, 3M will begin relocating manufacturing of the following product series from China to Vietnam.

- **3M™ DIN C-Form Socket, DIN 41612 Series**
- **3M™ DIN R-Form Socket, DIN 41612 Series**
- **3M™ DIN C-Form and R-Form Plugs and Shrouds DIN 41612 Series**

This transition supports our long-term strategy to streamline manufacturing operations and help mitigate potential future cost impacts while maintaining supply continuity.

Key details:

- **There will be an updated SKU list provided upon completion**
- **SKU change will be needed as the Country or Origin will be changing from China to Vietnam**

ACTION: During the transition we will be extending the lead time of these connector series to 130 days. Once completed we will reduce the lead times back to current status.

We appreciate your partnership and understanding as we complete this transition. Your sales representative is available to help review forecasts, plan inventory needs, and support any supply questions during this period.

Please See Appendix A for impacted products:

Brent Gossett
Portfolio Marketing Manager for Global Interconnect
