

January 29, 2026

**Subject: Manufacturing location change for 3M Bumpon™ products**

To Our Valued Customers:

This letter is to update you on a planned manufacturing location change for 3M Bumpon™ products you purchase from 3M that are currently produced at our Fairmont, Minn., manufacturing facility in the United States.

As part of 3M's ongoing focus to optimize its global manufacturing operations, the company intends to consolidate current Fairmont operations primarily to other existing 3M sites, resulting in closure of the Fairmont site by early 2027.

**3M Bumpon™ Source of Supply**

We anticipate that your source of supply of 3M Bumpon™ products currently manufactured at Fairmont will transition to 3M's manufacturing facility in Decatur, Ala., in the United States. As a result, there would be no change in the country of origin for your Bumpon™ products. At Decatur, we intend to manufacture Bumpon™ products using the same equipment, raw materials, sources, processes, and specifications currently used at our Fairmont site to produce the high-quality Bumpon™ products that you trust from 3M.

**Timing**

For now, no changes are required on your part. We anticipate beginning the transition of your source of supply in the fourth quarter of 2026. We are committed to assisting you with the upcoming transition, including understanding your demand plans and the need for any required re-qualifications.

This move is designed to optimize the flow of products between sites to reduce complexity and touch points, drive supply chain efficiency, and deliver high service levels for our customers.

Please contact your 3M representative with any questions.

We thank you for your continued partnership with 3M.

Sincerely,

**Charles Gould**  
Sr. Global Portfolio Manager  
Display and Electronics Product Platforms
