End of Life Notification

To Gabriele

From time to time we find it necessary to change, modify, or replace our product offering. These changes are usually the result of advancements in technology that offer improvements in performance or manufacturability. Unavailability of component parts, generally of an earlier technology or an older design, can cause the obsolescence of outdated product families.

We sincerely appreciate your business and will make every effort to work with you during your transition to the new power supplies. In some cases of obsolescence, a new advanced model has been introduced to replace the existing power supplies. Most of the products now being discontinued are available for an end-of-life last time buy.

Please reach out to your local Sales and FAE team for suitable replacements. If you have any questions or need specific application assistance, please contact us (you may visit <https://www.advancedenergy.com/en-us/support/sales-technical-support/>) or your local sales representative to assist you. Thank you for your continued patronage.

The following models have been marked as EOL:

Brand	Model No	Product Rank	Replacement Model	Replacement Info	LTB start	LTB end
Artesyn	DS850DC-3	L	CSU1300ADC Series	Higher power output DC-DC PSU in CRPS form factor	16 Jul 2026	16 Jul 2027
