Bourns® SRN5030HA Series Semi-shielded Power Inductors

Process Automation

Riverside, California – January 22, 2026 – In the spirit of continuous improvement, effective May 15, 2026, Bourns will change the inspection process from a manual process to an AOI (Automated Optical Inspection) process for the SRN5030HA Series Semi-shielded Power Inductors. A list of affected part numbers is included below.

| Affected Part Numbers | | |
|--------------------------------|--------------------------------|--------------------------------|
| SRN5030HA-R47Y | SRN5030HA-2R2Y | SRN5030HA-220M |
| SRN5030HA-1R0Y | SRN5030HA-4R7Y | SRN5030HA-470M |
| SRN5030HA-1R5Y | SRN5030HA-100M | SRN5030HA-101M |

The form, fit, and function of the affected part numbers will remain the same. The quality and reliability of the affected inductors should be improved as a result of the process change. The country of origin of the affected part numbers will remain the same. Traceability will be maintained through lot code and date code.

Samples are available upon request. Bourns recommends that customers test the affected part numbers in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

Date that deliveries of products manufactured with current process will cease: **May 14, 2026**

Date that deliveries of products manufactured with new automated process will begin: **May 15, 2026**

First date code using the above changes: **2620**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
