Product Information

Affected parts and revisions:

4AV19F

Does the part number change? No

Type of Change:

Supplier

Change Description:

A supplier change will be implemented for component 4AV19F. The current supplier will be replaced by new Supplier. The component will remain unchanged in terms of design, material, dimensions, performance, and functional requirements. No changes to form, fit, or function of the final product are expected because of this supplier change.

Reason for change:

This supplier change is being made to strengthen supply chain stability, improve sourcing flexibility, and ensure long-term continuity of supply.

Justification for change:

The new supplier has been evaluated and approved through the company's supplier qualification process and has demonstrated compliance with all applicable quality, manufacturing, and performance requirements. Validation activities were completed to confirm equivalence with the current component. Results indicate no impact on product form, fit,

function, reliability, or performance. Therefore, this change is not expected to affect product quality or customer requirements.

Product Identification to distinguish the change:
