

June 2024;

Dear KAVX Connector OEM Customer and/or Global Distributors:

Re: EOL Notification - Partial list of Varicon™ Rack/Panel Connectors

The Kyocera AVX Varicon™ Input/Output Rack/panel connector family was developed in the 1970's as a ruggedized connector with tuning fork contacts and has been servicing global customers with applications in military, industrial, and test measurement markets.

As part of product lifecycle management, Kyocera AVX regularly assesses the availability, sustainability, and status of mass production tooling to manufacture these connectors to meet the needs of our global customers.

Due to aging tooling, suppliers obsoleting components, and very limited forecasted demand/sales history, we have decided to end of life (EOL) a large portion of our active Varicon parts.

The attached Varicon parts will be going EOL effective immediately without the possibility for a Last Time Buy (LTB) due to the age/status of production tooling.

Kyocera AVX will continue servicing 1139 part numbers. Please refer to the attachment for details (Kyocera AVX Varicon Parts to KEEP SERVICING 2024-06.xlsx).

We appreciate your Varicon business in the past and apologize for any inconvenience. We look forward to servicing you on any active Varicon P/N. If you have any questions, please contact your local sales representative or distributor.

Best regards,

Kyocera-AVX
Global Connector Marketing team
