

Dear TTI-Team,

Good Morning.

We would like to inform you about the current situation regarding the plating supplier for Lear PN 28288306718.

Due to ongoing capacity constraints at Diehl, they are currently unable to support the increasing demand.

To ensure continuity of supply, we need to expedite the approval of Collini as a second supplier.

OEM approval is requested and will be sent to you upon receipt.

Your request for a PPAP is urgently needed as Collini will soon need to be installed as a second supplier to maintain supply capability.

Thank you and best regards

Mit freundlichen Grüßen / Best regards

Jassin Imaankaf (Mr.)

Junior Account Representative
