

Dear TTI PCN team,

We would like to inform you about the current situation regarding the plating supplier for PN 28768000001.

Due to ongoing capacity constraints at Diehl, they are currently unable to support the increasing demand.

To ensure continuity of supply, we need to move forward with approving Collini as a second source.

Customer approvals are required as soon as possible, as Collini will need to be installed shortly to maintain our ability to deliver without interruption.

Please let us know in case you require a PPAP.

In case of further questions, please let us know.

Mit freundlichen Grüßen / Best regards

Jassin Imaankaf (Mr.)
Junior Account Representative
