Subject: Switch Changes in PGR-4700, AMAT, and RCD300 families

Document: LFPCN_RC00112

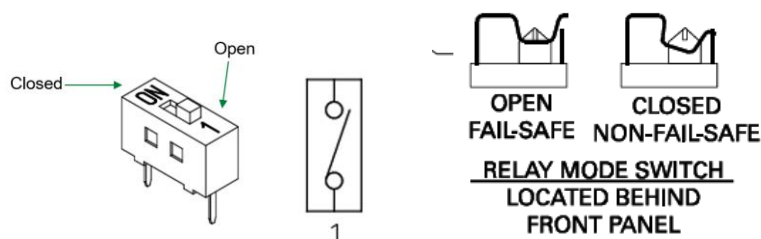

Date Released: Sept 10, 2026

Dear Valued Customer,

Due to the obsolescence of a selector switch for fail-safe/non-fail-safe settings, the following products will have a new switch:

- PGR-4700-120
- PGR-4700-24
- PGR-4700-240
- PGR-4700-K1300
- AMAT-100-GFI
- AMAT-30-GFI
- AMAT-FS120-GFI
- AMAT-FS24-GFI
- AMAT-PS1000-GFI
- RCD300M2-24V
- RCD300AMAT24V30MA
- RCD300M2-120V

This component is located behind the front panel, as indicated by the picture on the right below. The replacement component has been tested and validated by engineering, and its color will be subjected to change in the future.

The effective date of this product update is September 10, 2026. For detailed information about this change, please contact technical support at relays@littelfuse.com or 1-800-832-3873.

Sincerely,

Rylan Walter
