## Product Change Notice (PCN)

(04/15/2026)

### Reed switch manufacturing location Change of Reed Sensors

Dear Valued Customer,

Littelfuse would like to notify you of the change on reed sensor P/Ns in the table below.

At reed switch level, there are no other changes but only manufacturing site:

Before – manufacturing site is LF Mexico plant (MA3)

After – manufacturing site is LF Philippine plant (PH1)

At sensor level, there are no other changes but only COO which will be visible on outer box label.

Before – COO Mexico

After – COO Philippines

Sensor samples with Philippine-made reed switch and LF internal qualification report are readily available for your need.

Due to the MA3 reed switch inventory in LF, we are about to start using PH1 reed switch roughly around mid-May.

During the transfer period you may receive the sensors with reed switch produced from both plant MA3 and PH1 onwards until the inventory is depleted from our distributors.

Any concerns or questions pls contact LF regional sales managers.

Best Regards,

Julius Venckus
