

PRODUCT CHANGE NOTICE

Expertise Applied | Answers Delivered

Issue Date: June 8th, 2026

Dear Valued Customer,

This notice C0639 is to inform you of an assembly status change for certain items previously purchased from Littelfuse.

Description of the Change:

The Hard-Wired Fuse Box, PDM61001ZXM and PDM61003ZXM, previously shipped with the cover assembled together with the base, will now be shipped with the cover not installed. Customers will receive the fuse holder with the cover provided separately, allowing direct installation of the fuse without first removing the cover.
This change will not affect the form, fit, or function of the products.

Reason for The Change:

This modification is intended to improve installation efficiency.
By eliminating the need to remove the cover before fuse installation, customers can save labor time during assembly.

Effective Date of the Change:

September 29th, 2026

What You Need to Do:

No action is required from your side.

If you have any questions, please feel free to contact your Littelfuse Customer Service Representative or your Inside Sales Representative. We appreciate your business and our continued partnership.

Sincerely,

Associate Product Manager
Littelfuse Commercial Vehicle Products

As is:

- The cover assembled **together** with the base

**To be:**

- Covers will no longer be assembled together with Bases.
- Instead, Covers will be packaged together with TPAs in smaller cartons.
- The smaller carton will then be packed together with Bases inside larger master carton.
