New assembly plant for Littelfuse high voltage MOSFET in i4 package

Dear valued customers and partners,

Littelfuse intends to transfer the assembly of its high-voltage MOSFET in isolated ISOPLUS i4pac packages into its in-house assembly facility in the Philippines soon. This transfer will improve our supply chain efficiency, and our service levels for customers.

. **Affected part numbers:** please refer to [Affected part numbers](#) (p. 3)

. **Schedule:** parts will be delivered from the in-house factory starting from **December 2026**.

Summary of changes	
Country of origin	No change - Philippines
Form, fit, function	No change
Part number	No change
Bill of material	Full tin pin plating in the new location, no other changes
Assembly process flow	No change
Assembly equipment	Identical or better
Marking & Labeling	Some differences. Details in appendix.
Packing	Some differences. Details in appendix

A lack of reply to this change notification before **Oct. 5th, 2026**, will be considered an acceptance of the change.

Please contact your Regional Sales representative or Field Application Engineer for any inquiry or further details.

Best Regards,

Affected part numbers

Part number	Description
IXTF1N450	4500V, 80mΩ n-channel MOSFET in i4pak
IXTF1N450BS	4500V, 80mΩ n-channel MOSFET in i4pak
IXTF02N450	4500V, 625mΩ n-channel MOSFET in i4pak
IXTF1R4N450	4500V, 40mΩ n-channel MOSFET in i4pak

Bill of Material changes

ASSEMBLY COMPONENT	Change
Die	No
DCB	No
Lead frame	No
Solder Material	No
Wire	No
Molding Compound	No
Pin plating material	Yes (new: pure tin)
