To meet increased market demand, Murata is implementing production increases at Murata's various factories. The India factory will be added as a facility that sources MLCC from Murata's global factories for taping, strengthening our supply system to address future demand growth in the India and ASEAN regions.

3. Products Before and After the Change:

The MLCC products we supply are manufactured at our MLCC production factories.
The equipment, packaging materials, and process control standards used throughout the entire process from packaging to shipment are identical across all our factories.
Therefore, there are no differences in quality or specification guarantees between our various factories.
The MLCC products themselves are procured from the most suitable factory based on market demand and our production plans. Therefore, the country of origin indicated may differ from that of products shipped from the original supplying factory.
