1. Product Type, Customer/Murata/Alternative Part Numbers:

Product Type: Pyroelectric infrared sensor IRA-S series (lead type) and Fresnel lens
Please refer to the attached documents for detailed Part Numbers' information.

2. Reasons/Background:

The sales of our Pyroelectric infrared sensor IRA-S series (Lead type) is expected to decrease as change of needs and deterioration of environments.
In addition, our productivity risks are increasing due to aging facilities and material suppliers.
As a result, we decided to withdraw from the IRA-S series (Lead type/analog output) business because profitability was not expected, and concentrate resources on SMD type/digital output.
Accordingly, the Fresnel lens business will be terminated.
