Dear Nichicon Valued Customers

Subject: Notice of discontinuation of production

We would like to take this opportunity to extend our appreciation for the business relationship between our companies and your continuous support to our organization.

We would like to inform you that we have decided to discontinue production of the aluminum electrolytic capacitors listed in the table below. Please refer to the details of the discontinuation and potential replacements. We would appreciate your understanding.

2. Replacements for discontinued products

Please see the attached document.

3. Final order date for discontinued products

Until June 30, 2024

4. Last shipping date

Scheduled on June 30, 2026. It depends on production condition.

5. Reason for changing to discontinuation.

These products are aluminum electrolytic capacitors and conductive polymer aluminum solid electrolytic capacitors, and these are used widely in the market. However, these are product group, which we cannot expect to increase production capacity due to replacing to higher grade products and custom materials, sizes and controls etc. We decided to officially discontinue the production of the production group for total production improvements.

Sincerely yours,
Nichicon Singapore
