

Product Change Notification

Product Change Notification Number: 26003

Notification Date: 3/31/26

Title:

Manufacturing Process Location Update

Product Identification:

Product Name: SP-3855 Celestica Part Number: 26014921-101YCS Honeywell Part Number: 26014921-101

Reason for Change:

Material / Composition

Processing / Manufacturing

Design / Firmware

Logistics

Manufacturing Location

Quality / Reliability

Change Description: Redistribution of manufacturing steps

Effective date: 3/31/2026

Description of Change:

Assembly and manufacturing operations through burn-in processing will be performed at Spectrum Control, Inc.'s Juarez, Mexico facility.

Final electrical test, Quality Assurance inspection, product acceptance, certification, and shipment will continue to be performed at Spectrum Control, Inc.'s Marlborough, MA, USA facility.

This change represents a controlled redistribution of internal manufacturing steps between two established facilities.

Manufacturer location-of-record remains Marlborough, MA, USA.

Control of Change (AS9100 8.5.6)

- The change has been reviewed and authorized prior to implementation.
 - Associated risks have been evaluated.
 - Verification activities confirmed via FAIR approval by Celestica and/or Honeywell.
 - This Product Change Notification (PCN) Manufacturing Process Location Update shall be included as an attachment to the FAIR package from Spectrum Control.
 - No changes to design data, configuration baseline, specifications, or regulatory approvals have occurred.
 - Process controls, work instructions, equipment validation, and quality oversight remain equivalent and controlled within Spectrum Control, Inc.'s certified Quality Management System.
- Both facilities operate under Spectrum Control, Inc.'s certified Quality Management System.

Impact Assessment

There are no changes to:

- Product design
 - Form, fit, or function
 - Bill of Materials (BOM)
 - Approved supplier base
 - Test procedures or acceptance criteria
 - Regulatory or certification status
 - Final acceptance location
 - Shipment location
 - Product performance, reliability, or compliance status
- No impact to quality, performance, reliability, or supply continuity is anticipated.

Implementation:
Effective Date: 3/31/2026

Please review and flow down as required within your quality system and customer notification processes. Should additional information be required, please contact us.

Identification Method to Distinguish Change:

Products manufactured with Date Code 2537 and later will have Juarez, Mexico labor content.

Qualification Data:	Upon request	Will be available (mm/dd/yr):	3/31/2026
Samples:	25 units provided	Will be available (mm/dd/yr):	11/24/2025

Quantifiable Impact on Quality & Reliability:
None

Proposed First Ship Date: 4/1/2026

SCI Contact: Please contact your SCI Sales Representative or Distributor for additional information (when replying via e-mail please include PCN number in subject line).
