

Apr/X/2026

Dear Valued Customers,

Notice of Force Majeure

We hope this letter finds you well and prospering. We would like to take this opportunity to express our sincere appreciation for your continued support.

With reference to the above subject, we hereby notify you that an event of force majeure beyond our reasonable control has occurred due to the circumstances described below, and we formally declare force majeure.

1. Description of the Force Majeure Event

Our supplier (hereinafter referred to as the "Supplier") has declared force majeure, stating that the suspension of shipments and delays in supply of rare earth magnets are unavoidable due to export restrictions imposed by the Government of the People's Republic of China on rare earth magnets.

The materials used by our company (rare earth magnets and components/subassemblies containing such magnets) are directly affected by these regulations, resulting in disruptions to our production and procurement activities.

2. Impact on Our Company

As a result of the above circumstances, our company has experienced, or may experience, delays or inability to perform, in whole or in part, its obligations related to the manufacture, shipment, delivery, inspection, and other related obligations of our products.

3. Scope of Impact (Affected Products)

The following products that employ neodymium magnets or samarium cobalt magnets made from materials subject to export restrictions:

RS Relays

RD Coaxial switches

DK Relays

DY Relays

4. Current Status and Outlook

According to the Supplier, they are currently confirming future measures with the Ministry of Commerce of the People's Republic of China; however, no specific instructions or communications have been received to date. As such, the future outlook remains uncertain at this time.

We are continuing our efforts to minimize the impact by working closely with the supplier. In addition, we are taking all commercially reasonable measures, including exploring alternative sourcing options, considering specification substitutions, and reviewing inventory and production plans. We will promptly share updates with you as soon as further progress becomes available.

5. Exemption from Liability and Consultation

As these circumstances are beyond our reasonable control, we shall not be held liable for any delay or failure in the performance of our obligations during the period in which the force majeure event and its effects continue.

We would appreciate the opportunity to consult with you in good faith regarding possible changes to delivery schedules, alternative arrangements, or other necessary measures.

Sincerely

Kohei Kuwata
