Replacement Type Definition

DIRECT REPLACEMENT

Exact same part in a different package or form factor. The replacement part has any other update that does not change the function of the product itself

COMPATIBLE

The replacement part is different from the original part but allows it to be used for some applications. The replacement part is not the same part. The difference could be in color, size, material, or performance (e.g., CAT5 to CAT6), etc.

COMPLEX

The replacement part(s) are too different from the original part to assume it can easily replace the original part, however Panduit can provide a replacement which may be used in some applications. Customer Experience team should be contacted.
