Title / short description	SSD Technology Update
Affected article category	HMIs and industrial PCs
Change category	Function
Change number	CDR260003E01_2-00
Reason for PCN/PDN Revision	Update SSD Component

Purpose/objective of the change

Shortage of technology platform

Detailed description of the change

Due to global shortages and the accelerated discontinuation of the BiCS3 SSD technology by our suppliers, we must now move to the BiCS5 technology. This is a necessary change to continue providing timely product into the market. Exact changeover time will depend on supply runout.

The new technology does not support 60GB drives, so we will be removing the option from the listed products that contain them. This applies to both standard products and customer specific articles. Customer specific articles will be upgraded to 120GB. Compared to the previous model, the SSD shows modified performance characteristics.
