

PRODUCT LIFECYCLE BULLETIN

EE Series

28th April 2026

Dear Customers and Partners,

This bulletin supersedes the one issued on 24th January 2025 providing an overview to the lifecycle for the E Series connector.

The lifecycle for the part numbers starting with 'EE-' (for example EE-0071340121, EE-0071340203, etc.) will change from **Active** to **Obsolete**, meaning all parts and the components within its bill of materials in the entire product series will no longer be available. We cannot offer an opportunity for any last time buy (LTB) for this product series.

If you have any questions or require any clarification, please do not hesitate to contact our local Sales representatives.
