PTN

Discontinuation of MKT stacked capacitors of the B32520*, B32521*, and B32529* series

To streamline the product range, the following MKT stacked capacitors from the B32520*, B32521*, and B32529* series with a rated voltage ≤ 63 V (DC) are being discontinued. The reason is that the thin MKT film used for these versions is no longer available on the market. Alternative types, as listed below, are therefore only available in larger lead spaces. For further information, please contact your regional sales representatives. All other products not explicitly listed in the affected products list below remain unchanged and are not affected by this notice
