# Change of casing material for the sensor head B57704M0103A001

Due to the standardization of material usage, the plastic raw material used in the current sensor head has been changed. To maintain a reliable supply chain for our customers, TDK has approved the use of an alternative material. Consequently, the color of the sensor head has changed from white to black. The product data sheet has been updated to reflect this change. All product specifications remain unchanged.

**Affected products**

| Ordering code | Type |
|---|---|
| B57704M0103A001 | NTC thermistors for temperature measurement (probe assemblies) |

Scheduled date of change: January 2027

**Enclosure** PCN (ID No. T131-29)

**4. Description of change**

Due to standardization of the material usage, the plastic raw material used in the current sensor head has been changed and the color has changed from white to black. TDK has released a replacement sensor head material to maintain the supply chain for the customer.

**5. Effect on the product or for the customer (benefit, quality, specification, lead time)**

The product data sheet has been updated and product specifications remain unchanged.

**6. Quality assurance measures / risk assessment**

The reliability test for reprenterntative product has been performed in order to ensure the quality of the product.

**7. Scheduled date of change** January 2027

**8. Estimated date of first delivery of changed product** -

If TDK Electronics AG does not receive notification to the contrary within a period of 10 weeks, TDK Electronics AG assumes that the customer agrees to the change.

☒ For an interim period we cannot rule out that old as well as new products will be shipped.

☐ Future shipments can consist of old and new products as the new changed product is used as an alternative to the old product.
