U26C081023 – Rev1

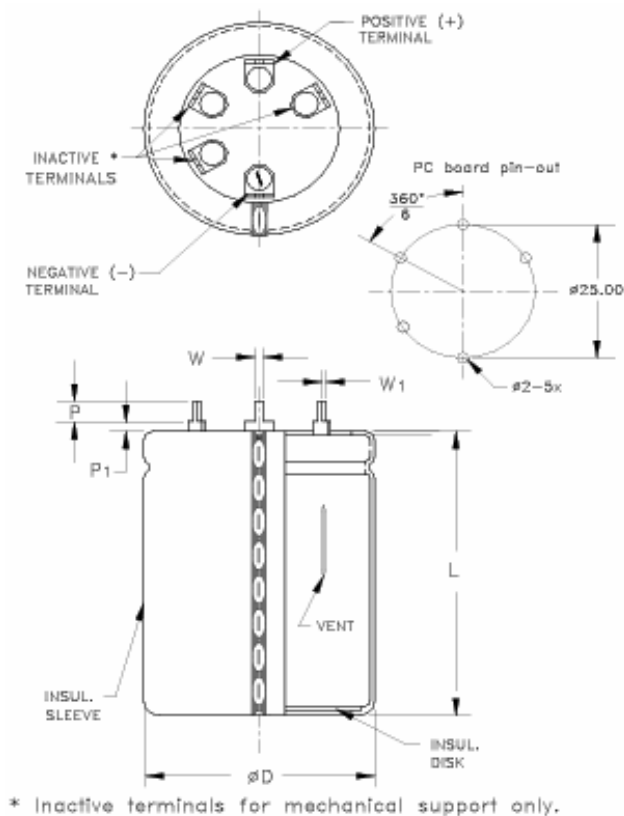

September 3rd, 2026

Notification of Obsolescence: Straight-Pin Standoff Terminal Aluminum E-Cap

E-Cap PN's with 5x Straight-Pin Terminals, terminal code VQT and VRT (Example: E91D401**VQT**122MB63U) will be made obsolete. These types are legacy style developed for aggressive board cleaning which is no longer applicable for most of the industry and is not supportable by automated production equipment.

Industry standard snap-in style terminal code VN/VS should be considered as an alternative either by using standard catalog 2-pin snap-in type or custom multi-pin snap-in type. Please consult with your sale representative for alternatives.

VQT / VRT

UNITED CHEMI-CON, INC. · 1701 Golf Road, Suite 1-1200, Rolling Meadows, IL 60008
Phone (847) 696-2000 · Fax (847) 696-9278 · <http://www.chemi-con.com>

Schedule of the change

Last time buy orders should be received by September 30th, 2026. Last production date will be March 31st, 2027.

Sincerely,

Mitchell Weaver
VP Sales and Marketing
United Chemi-Con
