PCN (Product Change Notification) reference: **2025/14f**

Subject: Knowles/Novacap Automated Blanker, Printer, and Stacker

Dear Customer,

The purpose of this notification is to advise on the implementation of new equipment to add automation to the blanking, printing, and stacking process in the Knowles Valencia facility. Previously, this process was only performed with a semi-automated process. Moving forward, shipments will come from both process lines. Knowles part numbers listed in Appendix I below will be affected by this change.

The reason for this notification is that a new automated blanker, printer, and stacker has been validated and will be implemented in the Knowles Valencia Facility.

As a result of this change and preliminary testing, we have determined that there is no change to form, fit or function. Knowles considers the risk associated with this change to be low.

Knowles equipment qualification was performed with the completion of the equipment qualification finalized in mid-November. If requested, test results can be provided.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Matt Ellis".

Matt Ellis
Senior Director of Product Line Management

PCN Details

PCN reference: 2025/14f

PCN Issue Date: 18 March 2026

Product: Refer to Appendix I for list of Part Numbers.

Change Description: Implementation of automated Blanker, Printer, and Stacker.

Reasons for Request: Implementation of automated process to drive reduction in process variability.

Changes to Form, Fit or Function: No changes to form, fit or function.

Changes to Quality or Reliability: None.

Changes to Part Numbers: None.

Qualification Results: Will be available on request.

Are Samples Available? Will be available on request.

Shipment date: Beginning mid-June 2026 or on prior customer approval.
