

Customer Information Notification

CN-202604032I

Issue date: 13 May 2026

Effective date: 12 Jun 2026

Dear pcn@ttiinc.com,

Here's your personalized quality information concerning products our customers and partners purchased from Nexperia.

For more details please contact your respective Nexperia CSR/AM.

Introduction of new carrier tape for SOD882

Notification information

The tape material for SOD882 will be changed from paper to 3-layer Polycarbonate / ABS (Acrylnitril-Butadien-Styrol). This implies a minor change of the pocket dimensions.

3-layer Polycarbonate / ABS tape material is already in use for other packages within Nexperia. The surface material does not impact the handling of the carrier tape nor the peel off force/behavior of the cover tape.

The cover tape material and all other packing materials will not be changed.

The recommended storage conditions and shelf life time as well as the MSL-level of the packed devices remain unchanged.

The new material does not have any impact on the performance of the packed devices, including solderability. The ESD protecting function of the tape is comparable fulfilling the requirements.

The pick and place test did not reveal any difference between the tapes. The visual appearance, dimension and electrical performance of the packed devices are not influenced by this change.

Why do we issue this notification?

Standardization for carrier tapes.

Change Category

- Wafer Fab Process
- Assembly Process
- Product Marking
- Test Location
- Design
- Wafer Fab Materials
- Assembly Materials
- Mechanical Specification
- Test Process
- Errata
- Electrical spec./Test coverage
- Wafer Fab Location
- Assembly Location
- Packing/Shipping/Labeling
- Test Equipment

Identification of affected products

Product Identification does not change

Impact

No impact to the product's functionality anticipated

Data sheet revision

No impact to existing datasheet
