

Notification Regarding Base Resin Change for Wire-Wound Ferrite Power Inductors

DATE: April 18, 2025

RE: Notification Regarding Base Resin Change for Wire-Wound Ferrite Power Inductors

REF NO.: UTY-NP25-02

We are writing to inform you of an important change to our products in response to evolving regulatory requirements and customer requirements concerning Per- and polyfluoroalkyl substances (PFAS).

The deliberations and evaluations on the regulations to PFASs have been mainly started and developed in the EU and the United States. PFASs are defined as fluorinated substances that contain at least one fully fluorinated methyl or methylene carbon atom.

The evaluation schedule of electronics and semiconductors sector, which belong to our products, is not decided yet. In contrast, we have started to receive the regulation requirement from some customers. To meet the trend of the legal regulations and customer's requirement, we decided to proceed PFAS-free in step-by-step basis for applicable products.

For a PFAS-containing material of our products, the change plan is shown as below.

The following details are provided for your reference:

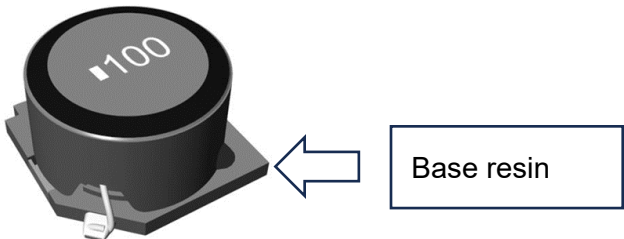

1. Affected products

Wire-wound Ferrite Power Inductors: L□RN series

2. Details of the Change

The base resin of the applicable products will be changed from PFAS-containing to PFAS-free.

Note: No change in environmental guaranteed items other than the PFAS-free base resin.

Item	Existing	After change
Part No.	No change	
Change point	PFAS-containing base resin	PFAS-free base resin
Change position		

3. Implementation Timeline

Production start: September 2025

Note: The stocks will be replaced from the scheduled start of production.

4. Quality and Specification

The quality level of the changed products is the same as that of the existing ones. No change is in specifications.

5. Environmental Documentation

Environmental materials for PFAS-free products are available upon request.

6. Reliability Data

Refer to the associated document "Wire-Wound Ferrite Power Inductor PFAS free".

7. Sample Availability Schedule

Sample shipment starts May 2025.

Your approval of this change **by July 31st, 2025** would be greatly appreciated.

Regarding this change, we consider this notification as the completion of the specification change. However, if any actions such as specification sheet updates are required, please inform us.

We sincerely appreciate your understanding and cooperation in this matter and look forward to our continued business.
