Change Description

Type of Change	Design	Manufacturing location change	Capacity Enhancements	Others (specify);
			X	
Description of Changes	This Product Change Notification (PCN) is to inform about a capacity enhancement tool for listed Part Numbers, according to VDA Trigger Matrix No.13 and AIAG section 3.1, item 2. The manufacturing location remains the same. The change has no impact to form-fit-function. TE Change process follows a strict procedure, which fully maintains quality and ability to supply. Internal release process is ensured by TE, including product validation as per OEM/CAM requirements. Validation will be initiated and completed according to project plan, as soon as samples are available. PPAP will be prepared (as per agreements between the two parties, including the negotiated TE trigger matrix), a request via ePPAP (via www.te.com or request to TE Sales representative) needs to be initiated by Customer 4 weeks prior to implementation date. In case no request is obtained till above mentioned date, PPAP will be considered as approved, and the change is considered as fully released.			
Reason for Changes	As a result of a thorough analysis of demand picture, matching our customer needs, we are going to optimize value stream of PNs in scope of this PCN. This capacity extension will support the need of our customers for shorter lead-times and optimized value streams.			
Risk Assessment	TE performs an internal risk assessment and defines actions to mitigate the pre-identified risks before any planned changes to part and process.			

Impact to Fit Form Function	Yes	No

Validation Scope - Details

The change follows a strict procedure, which fully maintains quality, ability to supply and form-fit-function of the concerned products, including internal release and product validation as per OEM/CAM requirements, where applicable. The TE manufacturing locations operate under a certified quality management system in accordance with defined requirements.
In case of changes impacting product families, and PPAP is required, TE will provide a family PPAP. This will be based on a representative part-number of the family and will approve all part-numbers impacted by the mentioned change. Samples will be available to high runners upon request.
