TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**Product Description:** (Text limited to 120 characters)  
DIN-RAIL Terminal Blocks MOQ Update phase 2A (Only Affecting Americas Customers)

**General Description of Changes**  
Following the successful implementation of Phase 1 of our Minimum Order Quantity (MOQ) adjustments, TE Connectivity (TE) is now proceeding with Phase 2A of the planned increases for the DinRail Terminal Block product family in the Americas region, effective 30/04/2026. As previously communicated, should your organization need to procure lower MOQs, TE continues our strategic master distribution partnership with OmniCable. This collaboration has already demonstrated enhanced supply chain efficiency and improved customer service capabilities throughout the Americas. For immediate assistance with smaller quantity requirements, please contact your local OmniCable office at 1-800-292-OMNI.

**Reason for Changes:**  
The MoQ adjustments will roll out in several stages to ensure a seamless transition. The Phase 2A part number list is <<attached>>. Subsequent changes and effective dates will be communicated accordingly. This transition aligns order volumes with packaging standards, reducing broken packages, and warehouse handling, resulting in faster, more reliable delivery and improved accuracy.
