TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
AMP SUPERSEAL 1.5 SERIES 4P PL

Description of Changes
This PCN is the same as P-25-029112 and is being generated again due to an internal system issue and contains the same following text: This Product Change Notification (PCN) replace the P-24-027215 and applies exclusively to customers who purchase the component through TE Connectivity Brazil. Dear customer, we hereby inform you about the mold replacement project for the production of housing connectors used to assembly the PN's 282088-1 and 282088-3 connector. We would like to inform you that the component Housing PN 282059-1 and 282059-3, used in the assembly PN 282088-1 and 282088-3, will be transitioned to an outsourced manufacturing process. Please note that the assembly PN 282088-1/-3 will continue to be carried out by TE Connectivity. The only change is that TE Connectivity will now incorporate the Housing 282059-1/-3, supplied by a certified external manufacturer, into the assembly process, but TE Connectivity will continue to supply this product to their customers

Reason for Changes:
Dear customer , as result of our continuous strive for improving our process, we hereby inform you about this outsourcing project. This outsourcing is executing by following a strict procedure which guarantees no negative insurance on quality, ability to supply and form-fit-function of this product. Please after receiving this notification, PPAP and sample must be requested by ePPAP System in 10 days. In case of you do not request in ePPAP, TE Connectivity will understand and considered that this change was accepted.
