**Customer:** TTI Inc ( 168830 )

**Location:** Fort Worth

**Agreement:** Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**General Product Description:**

Tin plated ABC connector's shells and mod retainers

**Description of Changes**

The manufacturing source for the final tin (Sn) electroplating operation is changing from the current supplier to a new qualified supplier. Due to a short-term plant capacity constraint at the new supplier, the tin (Sn) plating operation will initially be sub-contracted to a third-party plating facility that holds ISO 9001, AS/EN 9100:2018 and NADCAP certifications. The new primary supplier will retain full responsibility for the entire plating process and will provide updated documentation demonstrating conformance to TE Connectivity specifications. A subsequent change notification is planned for Q3 2026 to transition the tin (Sn) plating operation fully in-house at the new primary supplier, eliminating the need for the sub-contracted plating step.

**Reason for Changes:**

Dear Customer, as a result of our continuous strive for improving our processes, we hereby inform you about a transfer of tools and/or processes. The transfer is executed by following a strict transfer procedure, which guarantees no negative influence on quality, ability to supply and form-fit-function of the concerned products. The new manufacturing location is under a certified quality management system according the standard industry requirements. An internal release based on our specifications will be executed before any parts will be delivered, which guarantees the performance.
