TE Connectivity

Product Change Notification: P-26-031169**PCN Date:** 27-AUG-26**Customer:** TTI Inc (168830)**Location:** Fort Worth**Agreement:** Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Multiple Parts Numbers

Description of Changes

The Internal Secondary Lock (ISL) geometry was updated by increasing material in the locking feature. The ISL color was also changed from Light Gray to Tan for identification and traceability. Connector finish good part numbers will not be modified. This is a change on the internal geometry of the connector and impacts to Tier 1 processes are not expected.

Reason for Changes:

Product improvement. The previous ISL design provided limited detection of partially inserted terminals and could contribute to terminals becoming stuck during service. The revised design improves terminal position assurance and serviceability.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	31-AUG-2026
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments

Part Number(s) being Modified:
