TE Connectivity

Product Change Notification: P-26-031609

PCN Date: 28-SEP-26

Customer: TTI Inc (168830)

Location: Fort Worth

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Composite Connector Resin Replacement

Description of Changes

The resin currently used in selected composite connector components has been declared obsolete by the material supplier. A replacement resin will be qualified and implemented to ensure continued product availability and compliance with all applicable design, performance, and reliability requirements. No changes to form, fit, or function are anticipated as a result of this material transition.

Reason for Changes:

Product improvement. The current resin used in composite connector components is no longer available due to supplier-driven material obsolescence. This change is required to maintain continuity of supply and long-term product support. Qualification of an alternate resin is necessary to ensure compliance with applicable product specifications and performance requirements.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	26-NOV-2026
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
