TE Connectivity

Product Change Notification: P-26-031786 **PCN Date:** 22-OCT-26

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
O RING PASS THRU CONNECTOR

Description of Changes
We are validating a new supplier of the O Ring 2203969-1 currently used for 26P PASS THRU HEADERS .

Reason for Changes:	
Product improvement. To mitigate any potential lack of materials on rubbers and due to global market situation, and to maintain and guarantee customer demand, TE is working on qualification and development of dual source supplier for peripheral seal used on transmission programs. TE will assign a new part number (2583994-1) to the O-rings supplied by the new supplier, to enhance traceability and prevent any potential material mix-up with components supplied by the current source. No fit, form, and function change.	
Estimated Dates:	
Last Order Date (Obsolete Parts Only):	**First Date To Ship** (Changed Parts Only):
	12-MAR-2027
Last Ship Date (Obsolete Parts Only):	**Last Date for Mixed Shipments:** (Changed Parts Only):
	No Mixed Shipments

Part Number(s) being Modified:

Part Number	Part Discontinued per PCN	Customer Drawing	Alias Part Number(s)	Substitute Part Number	Substitute Alias Part Number(s)	Description Of Difference
1-2297721-1	NO

CHANGE SUMMARY

To mitigate any potential lack of materials on rubbers and due to global market situation, and to maintain and guarantee customer demand, TE is working on qualification and development of dual source supplier for peripheral seal used on transmission programs (26P Peripheral Seal, 2203696). TE will assign a new part number (**2583994-1**) to the O-rings supplied by the new supplier, to enhance traceability and prevent any potential material mix-up with components supplied by the current source.

BEFORE AND AFTER COMPARISON

PPAP CHECKLIST

- C-Drawing released in DSD
- Measurement System Analysis (Gage R&R)
- CPK Study
- PFMEA, CP, PF updated and available in DSD
- Material Certificate
- Dimensional Results base on C-Drawing
- PVPR
- Items required in testing
- IMDS
- Traceability of Tooling
- PTR Samples – 5 parts
