TE Connectivity

Product Change Notification: PCN-26-275607

PCN Date: 19-MAY-26

Customer: TTI Inc (168830)

Location: Fort Worth

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)

FUZE Right Angle Pin Contact

General Description of Changes

Drawing Note Update. TE is revising the right angle pin drawing to update the material specification from HARD to HALF HARD. This change does not affect the form, fit, or function of the listed part numbers and is limited to a material note revision to align with the material currently used by the supplier.

Reason for Changes:

Reason for Change. During a First Article Inspection (FAI) review, TE identified a discrepancy between the material hardness specified on the drawing and the material hardness identified by the supplier on the FAI documentation. This discrepancy was reviewed with RTX, and the right angle connector SCDs were subsequently updated to permit the use of HALF HARD material for the pins. TE is now revising the drawing to align with the updated SCDs and the approved FAI.

PCN Attributes:

Product Category:	Kind of Change:
Connectors	Drawing
Change Feature:	Potential Customer Impact:
Note Update	No Customer Impact
Remarks:	

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Ship Date of Changed Items (Changed Parts Only):
