TE Connectivity

Product Change Notification: PCN-26-278721

PCN Date: 12-JUN-26

Customer: TTI Inc (168830)

Location: Fort Worth

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

Product Description: (Text limited to 120 characters)

Multigig Guide Hardware Modules

General Description of Changes

Customer Drawing Update. TE is revising the guide module assembly customer drawing (2828454) to reflect updates to the guide module screw. Screw part number 2226170 1 will be replaced with part number 2226170 3 per PCN 26 276659. As part of this change, dimensional updates are being made to the screw to improve fit within the guide module assemblies and to support immobilization of the guide module keys. The revised screw design incorporates an undercut feature below the head to enhance key retention. In addition, the guide module assembly marking will be updated to include the latest part revision.

Reason for Changes:

Dear Valued Customer, we are notifying you of a change to the guide module assemblies in this PCN. Screw part 2226170 1 is being replaced by 2226170 3. The new screw design includes an undercut below the head to eliminate key movement and improve retention. Major dimensions remain unchanged, and compatibility with existing field assemblies will be maintained. Guide module marking will also be updated to reflect the latest part revision for enhanced traceability and clear identification.

PCN Attributes:

Product Category:	Kind of Change:
Modules	Revision Adjustment / Part Clarification
Change Feature:	Potential Customer Impact:
Clarification/Correction	Customer Process Impact
